SUMMARY

Data Analytics enthusiast with hands-on experience in SQL Server, Microsoft Excel, and dashboard development. Built analytics projects across Sales, HR, and Student Performance domains using SQL queries, KPI reporting, and data visualization techniques.

EDUCATION

B. Tech in Computer Science Engineering
Sri Venkateshwara University College of Engineering, Tirupati
CGPA: 9.09/10 | Expected Graduation: 2028

TECHNICAL SKILLS

SQL Server • SQL • Python • Microsoft Excel

Pivot Tables • KPI Dashboards • Data Visualization

Git • GitHub • VS Code

PROJECTS

[Sales Analytics Dashboard](#) | SQL Server, Excel

- Designed Customers, Products, and Orders database in SQL Server.
- Developed SQL queries using JOIN, GROUP BY, and aggregate functions.
- Built an interactive Excel dashboard using Pivot Tables, Charts, KPI Cards, and Slicers.

[HR Analytics Dashboard](#) | SQL Server, Excel

- Designed Employees, Departments, and Attendance database in SQL Server.
- Analyzed salary, attendance, and workforce distribution metrics.
- Built an interactive Excel dashboard to visualize HR insights.

[Student Performance Analytics Dashboard](#) | SQL Server, Excel

- Designed Students, Subjects, and Marks database in SQL Server.
- Used SQL aggregations and RANK() window functions for performance analysis.
- Built an Excel dashboard for academic KPIs, rankings, and subject analysis.
